Content

1. Safety & product information

Your device has been carefully checked and packed before shipping. When unpacking it, make sure that all the parts are included and keep the packaging away from children. We recommend that you keep the carton during the warranty period, to keep your device perfectly protected in the event of repair or warranty. Please read the instructions before operating the device and keep them for later use. The product needs to be installed in accordance with national regulations.

In case the unit needs to get repaired, please go to the website: nokia.streamview.com/Support/ to contact the After Sales Service.

To prevent the spread of fire, always keep candles or other open flames away. Keep the device away from direct sunlight.

This marking indicates that this product must be properly disposed of throughout the EU in accordance with Directive 2002/96/EC (WEEE) and may not be disposed of with other household waste. Please recycle it responsibly to help with the sustainable reuse of material resources. Please return it to a collection system or contact the retailer where you purchased the product. According to the Battery Act, end users are legally obliged to return old batteries. Please do not throw used batteries to household waste but return them to a collection system for used batteries.

Simplified EU Declaration of Conformity
Hereby, StreamView declares that the radio equipment type product device Terrestrial TV Adapter is complying with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: Nokia.streamview.com/support
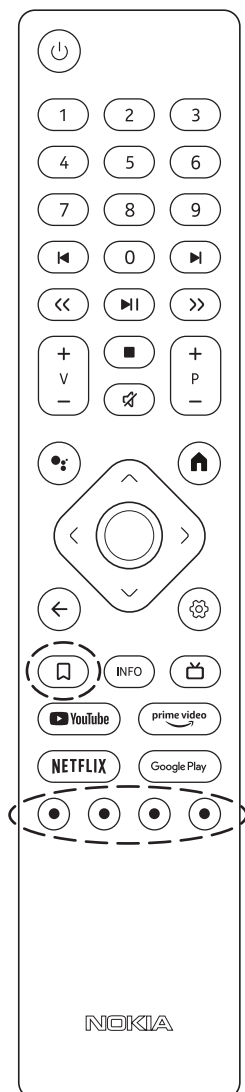

2. Satellite TV Adapter

The Satellite TV Adapter for Nokia Streaming Box 8000 upgrades your TV to DVB-S2 reception. Simply connect it to the Nokia Streaming Box 8000 and access free-to-air channels.

## 2.1. Streaming Box remote control options

3.3. First installation

Note! Images of menu screens that are shown in this user manual, are for reference only and may vary in your country.

Press the Live TV button on your remote control or select the Live TV application on the Home Screen and press OK to launch Live TV.

When starting Live TV mode for the first time, configure the settings (Country, First Audio Language, First Subtitle Language, Subtitle, LCN) of your Terrestrial TV Adapter on the TV First Installation screen. By using the directional buttons on your remote control, you navigate through the initial installation.

TV First Installation

Country (Region)	‹	UK	›
First Audio Language	‹	English	›
First Subtitle Language	‹	English	›
Subtitle	‹	off	›
LCN	‹	on	›

Next

On the next screen you can set the DVB Type, Antenna power, Scan Type and Service Type to perform a scan. To perform an automatic scan, use the automatic search configuration.

6.2. Lock Channels

Press the OK button to lock a channel in the channel list. Use the directional buttons to navigate through the channel list. Locked channel(s) will be marked with the lock symbol. To unlock a previously locked channel, highlight the channel and press the OK button.

Locked channel(s) can only be viewed when entering a 4-digit password. Default pin: 0000. Press the right directional button and enter the pin to watch the locked program. The pin can be entered via the numeric buttons on the remote control or via the virtual keyboard. To display the virtual keyboard, press the OK button on your remote control.

Lock Channels

1	Channel 1
2	**Channel 2** 🔒
3	Channel 3
4	Channel 4
5	Channel 5
6	Channel 6

(OK) Lock/Unlock

6.3. Skip Channels

Press the OK button to skip a channel in the channel list. Use the directional buttons to navigate through the channel list. Channel(s) set for skipping will be marked with a symbol. To un-skip previously skipped channel(s), highlight the channel and press the OK button.

Skipped channel(s) will then not appear in the channel list.
