

## Next generation streaming

### THOMSON Introduces the Streaming Box Plus: The Talk-Back Streaming Assistant with Integrated Speaker

Get ready for a game-changer in home entertainment. THOMSON unveils the new Streaming Box Plus 270, featuring built-in microphones for precise voice command recognition and an integrated speaker for real-time responses. Simply say "Hey Google" to navigate your TV, operate your apps or manage your smart devices – compatible with Google Home – from anywhere in the room, no remote needed. And no worries if the remote goes missing – just press the button on the box, and it will reveal itself with a friendly beep.

#### Hands-Free Voice Assistant

The Streaming Box Plus 270 is your 24/7 personal assistant. Thanks to its built-in speaker, it's ready to respond whenever you need it. Here are just a few examples of what you can ask your device to do:

- "Find the nearest restaurant, gas station, ATM, etc."
- "Will it rain tomorrow?"
- "Translate Good Morning to French."
- "What's the traffic like on my way to ...?"

Please note that some commands related to your mobile or smart home devices require the initial setup of the streaming device using the Google Home app on your smartphone.

Whether you're in the kitchen or lounging on the couch, you can turn on your TV with just your voice and interact without touching a remote. Equipped with advanced microphones that have passed the Google Assistant ART test, the Streaming Box Plus 270 ensures precise recognition of your commands. Want to watch a movie? Just say, "Hey Google, find action films" and let the box do the rest.

#### Google TV OS: A Universe of Content

The THOMSON Streaming Box Plus 270 runs on Google TV, giving you access to an incredible library of over 400,000 movies, shows, and series. The device brings everything you stream together on one screen, so you can find what to watch without jumping from app to app. Plus, with Google Cast, you can easily stream content from your phone or tablet directly to your TV.

## High-Performance Streaming

Speed and performance? Check. Backed by the Cortex-A55 processor, powerful X4 chipset, 3GB of RAM, and 32GB of storage, the THOMSON Streaming Box Plus 270 ensures smooth browsing and rapid app loading. On the connectivity front, it has it all: HDMI, USB-A 3.0, Ethernet, and Wi-Fi 6 — for stable, fast streaming.

## Cinematic Viewing with Dolby Vision & Dolby Atmos

While hand-free voice control takes center stage, the THOMSON Streaming Box Plus 270 doesn't compromise on picture or sound quality. Supporting up to 4K Ultra HD resolution, Dolby Vision and Dolby Atmos technologies, this streaming box offers an immersive, theatre-like experience right at home.

## Find My Remote

Ever lost the remote? We've got you covered. The Find My Remote feature ensures you'll never misplace your remote again. Simply press the dedicated button on the Streaming Box Plus 270, and the remote will emit a sound to help you locate it.

## **Note 1:**

### **Activating Far-Field Function:**

1. Go to Settings > Accounts & Profiles > Select your profile.
2. Choose Google Assistant and enable Hands-free Mic.

## **Note 2:**

If the box is connected to your TV with an HDMI cable and you give the box a voice command it automatically switches on your TV and responses to you through the TV. To play Google Assistant audio only through the built-in speakers of the box, disconnect the HDMI cable from the Streaming Box Plus 270.
