1. Safety & product information

Your device has been carefully checked and packed before shipping. When unpacking it, make sure that all the parts are included and keep the packaging away from children. We recommend that you keep the carton during the warranty period, to keep your device perfectly protected in the event of repair or warranty. Please read the instructions before operating the device and keep them for later use. The product needs to be installed in accordance with national regulations.

Please place the device at a well-ventilated location on a flat, firm and stable surface. Please unplug the unit in case of prolonged non-use. If the power cord is damaged, it must be replaced with the Nokia power adapter PA510EU, PA510UK. Please contact the After Sales Service to avoid possible danger.

NOTICE: To prevent electric shock, do not expose this device to rain or moisture and protect it from high temperature, humidity, water and dust. Do not use the unit in damp or cold locations.

In case the unit needs to get repaired, please go to the website: nokia.com/shop/support to contact the After Sales Service.

To prevent the spread of fire, always keep candles or other open flames away. Keep the device away from direct sunlight.

There is danger of explosion if the batteries are incorrectly replaced. Replace them only with the same or equivalent types. The used batteries must be disposed of safely. Throw them in appropriate rubbish bins in order to protect the environment.

Equipment with this symbol is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earthing.

This marking indicates that this product must be properly disposed of throughout the EU in accordance with Directive 2002/96/EC (WEEE) and may not be disposed of with other household waste. Please recycle it responsibly to help with the sustainable reuse of material resources. Please return it to a collection system or contact the retailer where you purchased the product.

According to the Battery Act, end users are legally obliged to return old batteries. Please do not throw used batteries to household waste but return them to a collection system for used batteries.

Simplified EU Declaration of Conformity

Hereby, StreamView declares that the radio equipment type product device Streaming Stick is complying with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: streamview.com/support

Intended for indoor use only in EU member states and EFTA states.

Apps and Performance

Download speed depends on your Internet connection. Some apps might not be available in your country or region. StreamingView membership may be required. Netflix is available in selected countries. More information at www.netflix.com. The availability of the language for Google Assistant depends on Google Voice Search support.

Data Protection

The application providers and the providers of the services may collect and use technical data and related information, including but not limited to technical information about this device, system and application software and peripherals. They may use such information to improve products or to provide services or technologies, which do not personally identify you. Additionally, some third-party services, already provided in the device or installed by you after purchasing the product, may request a registration with your personal data. Some services may collect personal data even without providing additional warnings. StreamView cannot be held liable for a possible breach of data protection by third-party services.

2. Introduction

The Nokia Streaming Stick upgrades your TV to a Smart TV and brings the experience of Android, known from mobile phones, to your TV. You can download apps, such as streaming services, games, TV media centers and thousands of more from Google Play. Ask Google to quickly find YouTube videos, the latest blockbuster, check the internet for weather or other content. Cast your photos, videos and music from mobile devices to your TV with Chromecast built-in.

3. Streaming Stick

4. Installation

4.1. Packaging content

Power adapter

HDMI extension cable

Installation instructions

2 x AAA batteries

Voice remote control

Operation:
0°C-50°C

4.2. Set-up

①

②

③

④

4.3. Remote control pairing

Turn on the TV and the Streaming Stick and follow the on-screen instructions to pair the remote control.

4.4. First installation

After you paired the remote control successfully, please choose the language from the list and follow the guide to set up your device.

5. Connect to Network

You can connect to the network by Wi-Fi.

To connect to the Wi-Fi, please follow these steps:

1. Press the button  to open the Settings menu->Network & Internet, enter the "Network & Internet" menu.
2. Open the Wi-Fi button to see the available Wi-Fi list.
3. Click the Wi-Fi name which you want to connect, then enter the right password to connect.

6. Installation of apps

You need a Google Account for downloading Apps on Google Play. If you do not have a Google account yet, you need to use your mobile phone or computer to create and edit it.

If you entered it during first time installation, press the Google Play button on the remote control. You can search and download Apps.

If you did not enter a Google account before, you can still add it. Go to the menu Settings -> Accounts to enter your Google account. Please press the OK button to open the virtual keyboard.

Note: some apps work only at home but not in a different network. These apps are not open internet services but only „in-house solution“ for a second and third TV in the house. The service of the application can therefore only be offered via your own network provider but not with an internet connection of a third party.

7. Connection of Bluetooth devices

You can connect audio devices, such as headphones and speakers as well as input devices, like gamepads and keyboard, to the Nokia Streaming Stick via Bluetooth.

Press the button  to open the Settings menu -> Remotes & Accessories -> Add accessory -> press OK. Please make sure that Bluetooth is turned on your device. Pairing will start and will connect the Bluetooth device to the Nokia Streaming Stick.

8. Cast Content (Chromecast)

The Nokia Streaming Stick has Chromecast built-in. You can cast videos, music or other content from your smart phone, tablet or computer to your TV.

1. Please make sure that your phone, tablet or computer is in the same network as your Streaming Stick.
2. Open the app that supports casting, e.g. YouTube
3. Select the video, touch it or click the cast icon.
4. Select the Streaming Stick and press the play button.

Please note, that not every app supports Chromecast and direct streaming and you'd need to install appropriate apps from Google Play Store (e.g. Facebook Watch for Facebook).

9. Hey Google

The Nokia Streaming Stick supports „Hey Google“ function. „Hey Google“ can be used to perform various operations, such as to adjust the volume by percentage, mute and re-activate the volume or to open various applications. You can search for various information from the Internet, such as „What's the weather like tomorrow“, or search for movies, series or videos in streaming service applications such as Netflix, Prime Video, Disney+ or YouTube.

10. Live TV

You can watch live TV Internet channels with IP TV applications you downloaded from Google Play Store, e.g. „Pluto TV“. Press the button  to launch the available live TV Internet channels.

11. Updates

Software updates of the Nokia Streaming Stick are done automatically. In case of available updates for installed apps, you will get a notification on the Home screen. Go to the notification and press OK to read it. Or you press the button  to open the Settings menu ->General Settings->Device Preferences->About ->System Update. In case that a new version is available, a “Download” button will appear. Please press it to download and start the update automatically.

12. Questions & Answers

What can I do with my Nokia Streaming Stick?	The Nokia Streaming Stick upgrades your TV to a Smart TV and brings the experience of Android, known from mobile phones, to your TV. You can download Apps, such as streaming services, games, TV media centres and thousands of more Apps from Google Play.
Do I need a Smart TV to use my Nokia Streaming Stick?	No. The Nokia Streaming Stick upgrades any TV to a Smart TV.
Which connections do I need to operate the Nokia Streaming Stick?	The Nokia Streaming Stick supports video resolutions up to Full HD when it is connected to the TV via HDMI. You can connect to the Internet either via Wi-Fi.
Does the Nokia Streaming Stick have pre-loaded Apps?	Yes, Netflix, YouTube, Disney+, Prime Video, Google Play, Google Movie, Google Music, Google Game, etc. are pre-loaded.
Do I need a Google Account to use my Nokia Streaming Stick?	You do not need a Google Account necessarily. But you would need it to get access to thousands of Apps on Google Play and to use Google Assistant and talk to Google.
How do I install Apps?	You need to be logged in with a Google Account to download Apps from Google Play. Press the Google Play button on the remote control of the Nokia Streaming Stick. You can search and download Apps to the Nokia Streaming Stick. If you did not enter a Google Account during first time installation, you can still add it. Press the button  to open the Settings menu -> Accounts to enter it.
I cannot find my app on the Google Play Store even I can download it to my phone?	Google Play Store has dedicated apps for Mobile and Android TV devices. Some applications are not available for both devices.
Where can I enter my Google Account?	If you did not enter your Google Account during first time installation, you can enter it in menu Settings (press the button ) -> Accounts
Can I create or edit my Google account on the device?	You need to use your mobile or PC to create and edit Google account.
What are the requirements for the Internet of my Nokia Streaming Stick?	The Streaming Stick works well with standard internet connection. However, you will have better experience the faster the Internet connection is. Please note, that the more devices are connected to your home network, the less broadband you have for your Nokia Streaming Stick.
Which Bluetooth devices can I connect to my Nokia Streaming Stick?	You can connect audio devices, such as headphones and speakers as well as input devices, like keyboard or gamepad, to the Nokia Streaming Stick via Bluetooth.
How do I connect Bluetooth devices to my Nokia Streaming Stick?	Go to the menu Settings -> Remotes & Accessories -> Add accessory -> press OK. Pairing will start and will connect the Bluetooth device to the Nokia Streaming Stick.
